Mr. Warren Swenson
2714 Thirtieth Avenue, South
Seattle, Washington

Dear Mr. Swenson:

This is to express appreciation for your participation in the Boeing life support experiment in a sealed chamber, which recently ended after a month's duration. Without your enthusiasm and interest, we could not have carried out this experiment.

Your desire to contribute to the experiment could not have been accomplished without the generosity of your personal time. I am sure you will agree that the advanced scientific and technological knowledge gained from this test will make a direct contribution to the future manned aerospace systems.

Please accept my personal thanks for your keen interest in the nation's space program.

Sincerely,

A handwritten signature in cursive script that reads "Eugene B. Konecci".
